

Let us meet your needs.

Your way, in your home.

We'll help you maintain independence while you plan for the future.

Within our continuum of care, United Methodist Homes offers in-home care options. These invaluable home-care services bridge the gap families often experience when there doesn't seem to be enough time in the day to be everything to everyone you care about. It can ease the daily burden of simple life tasks and enable you or your loved ones independence in the comfort of your home. Our home care services promote healing following illness or surgery, provide respite for busy family caregivers, and much more.

UMH provides the highest quality home care services to connect you to the care you need so you can live the life you want.

**Services can be provided
7 days a week.**

Services Provided

Nursing Care

A Registered Nurse works with each client, their families and physician to develop an individualized plan of care. Nursing care also includes RN supervision of care-aide services, medication management, ostomy/catheter oversight and diabetic management.

Personal Care

Certified Home Health Aides and Personal Care Aides assist with services such as bathing, dressing and grooming; toileting, incontinence and catheter care; medication reminders, splint brace assistance and exercises.

Companion Care

Personalized assistance from trained staff assist with a variety of tasks such as scheduling appointments, individual transportation, accompanying clients to medical appointments, grocery shopping and running errands. Other services may include doing the laundry, light housekeeping and even walking their dog.
